

ESH Specialist: ESH Specialist II

Interprets, recommends, and complies with environmental, health and safety regulations and/or company policies. Assists in planning for changes in physical facilities to meet new environmental requirements. Finds, evaluates, and prepares contracts for properly licensed hazardous waste disposal firms and monitors waste handling. Organizes and equips spill-control teams. Writes and updates environmental and spill-control manuals and procedures. Prepares environmental impact statements and applies for all new permits and renewals. Provides input to federal and state regulators through trade associations and industry groups for the writing and revision of regulations.

Knowledge

Frequent use and application of technical standards, principles, theories, concepts and techniques.

Problem Solving

Provides solutions to a variety of technical problems of moderate scope and complexity.

Discretion/Latitude

Works under general supervision. Follows established procedures. Work is reviewed for soundness of technical judgment, overall adequacy and accuracy.

Impact

Contributes to the completion of milestones associated with specific projects. Failure to achieve results or erroneous decisions or recommendations may cause delays in program schedules and may result in the allocation of additional resources.

Liaison

Primarily internal company contacts. Infrequent inter-organizational and outside customer contacts on routine matters.

Education and Experience

2 – 4 years with BS, 0 – 2 years with MS
