

# Industrial Operator: Sr. Industrial Operator

---

Operates automatic and manual chemical process equipment of varying complexity in various production processes in accordance with operating procedures. Equipment includes mixers, grinders, filter presses, dryers, filtering equipment, pumps and filling machines. Performs quality control analyses as required to complete in-process batches and identifies variations. Processes may generate high pressure and/or critical reactions and requires training in hazardous material handling and emergency procedures. Ensures processes and procedures are in compliance with regulations.

## **Knowledge**

Extensive knowledge in specialized functions. A wide and comprehensive acquaintance with, and understanding of, both general and specific aspects of the job and their practical application to complex problems and situations ordinarily encountered. Demonstrated ability to work at different tasks. Basic shop math. English reading comprehension. Ability to follow written and verbal instructions. Mastered all work areas and able to train others in those areas. Able to shift priorities as required. Able to manage the schedule and direct people. Good computer literacy used to input and interpret data, track progress, order materials, etc. Can communicate via email.

## **Supervision Received**

Minimal supervision. Work may be done without established procedures.

## **Consequence of Errors**

Errors are very difficult to detect and would normally require significant expenditures to resolve.

## **Contacts**

Contacts are frequent with individuals representing outside organizations and/or individuals of significant importance within the company. Contacts involve planning and preparation of the communications, require skill, tact, persuasion and/or negotiation to accomplish the objectives of the communication. Work in a team environment with good relations with others.

## **Work Products (Examples may include but are not limited to)**

Ability to wear PPE including respirators, coveralls, eye protection, etc. Must be able to lift, push, and/or pull up to 75 pounds. Hazardous material handling. Manual dexterity and hand/eye coordination. Able to work in industrial environmental conditions and maintain an orderly working environment. Must be able to be trained in forklift operation. Microsoft Office product knowledge.

## **Minimum Education and Experience**

High School diploma or equivalent. Mechanical aptitude. Attention to detail. Minimum 5 years of experience in an industrial manufacturing environment preferred. Must show initiative and be a self-starter.
