

Maintenance Worker: Maintenance Worker I

Performs repairs and maintenance in plant or office facilities or on machines and equipment. Typically performs work in one or more of the maintenance trades: carpentry, plumbing, painting, machine and equipment repair, electrical, sheet metal fabrication and welding. Conducts routine, periodic or special inspections to determine repair and maintenance work necessary to prevent breakdowns of facilities, machinery and equipment. Uses hand and power tools. Tests, inspects, troubleshoots and repairs machines and equipment. Uses blueprints, sketches, layouts, wiring diagrams, drawings and specifications.

Knowledge

Little or no knowledge of the job. Moderate understanding of general job aspects and some understanding of the detailed aspects of the job. Basic ability to use reasoning to diagnose and repair basic equipment.

Supervision Received

Close supervision involving detailed instructions and constant checking on work performance.

Consequence of Errors

Errors can be easily and quickly detected within the immediate work unit and would result only in minor disruption or expense to correct.

Contacts

Contacts are primarily within immediate work unit. Contacts involve obtaining or providing information requiring little explanation or interpretation.

Work Products (Examples may include but are not limited to)

Work in hot, cold and/or dirty conditions at times. Able to use maintenance equipment such as hand tools, test equipment, machinery, forklifts, etc. Ladders, hazardous equipment and chemicals. Computers.

Minimum Education and Experience

High School Diploma or GED with strong mechanical aptitude with the ability to reason and diagnose basic mechanical problems.
